can be FATAL!

12,200 pedestrians were killed by automobiles last year—1,340 more than the year before. Two out of every three violated traffic laws or committed unsafe acts which contributed to their deaths.

And believe it or not—many of these fatal accidents actually, happened less than six feet from the curb—only a step or two from safety!

Between intersection accidents accounted for more than one-third of all pedestrian fatalities last year. These victims carelessly rushed out from behind parked cars, or simply jaywalked themselves Into traffic—and death. Others even ignored the safety of lights and traffic officers at intersections to save a few seconds—and lost their lives.

yNever take safety for granted. Cross at'intersections within the cross-walks. Wait for the light or the policeman's whistle.. Be alert for the inconsiderate driver making a right turn, or the reckless one beating a light On open highways, allow for the speed of approaching cars. Walk Mthe. left, facing traffic.

Whenever you cross, look both ways. One step can be fatal!

LX9SCM TEXT FOB AUGUST 13-Pnrvtrtn 2:1-3. 1M7; 4:144t; 1:14; Л. 10-11; James 1:13-13,

MEMORY SELECTION - Keep thy heart with all diligence; for out of it are the issues of life .- Proverbs 4:23.

ьм **жи**је tu котя: ЯВЛ 3è/FIWWU UIII If lift f ЛяЛ л(Ы й IsmitMuf Cwaal W *> lifiMH Ihritin; мй h HfMiiiM.

By WILLIAM CULBERTSON, D. D. Of nt Nasty MЫe ff-tit-tO, гущ».

T IS well for us to face squarely such a topic as the one assigned. It is particularly necessary to review the biblical standards with re* ' Card to holiness of life, since thH day in which we live Is one Π lowered conceptions.

You will probably remember the story of the celebrated artist who was renowned because of his ability to put on canvas colors of accurate hue and great beauty. Ms secret was that be kept a number of valuable gems of all colors. He would turn frequently from his painting to study the color of these gems.

We need to spend time with the precious gems of the Word of God that we may clearly understand bow be would have us live.

L True Wisdom Involves the Fear of Jehovah (Prov. 2:1-5).

IN THE opening chapters of Proverbs, Wisdom is personified. Anyone who believes in Jesus Christ cannot help understanding something of his relationship to wisdom. In him "are bid all the treasures of wisdom and knowledge** (Col 2:3). To those of us who trust him, he has been made unto us wisdom (I Cor. 1-30).

point is that if we observe his commandments, if we incline our ears unto wisdom, if we apply our hearts to understanding, if we long for dis-Lord and find the knowledge of God.

God will meet every individual who really wants to know him. Said our Lord, "If any man willeth to do his will, he shall know .. (John 1:17).

H. True Wisdom Involves Holiness of Life (Prov. 2:10-17: 4:14-17; 5:14).

O truly know God is, of course, to be spared the heartache which results from being deceived is year. by sin and Satan. When wisdom enters the heart, the result is discretion and understanding (Prov. 2:ID, 11). Thus God delivers us from the way of evil and from men that speak evil things (v. 12).

Attention should be given to the description of these evil meh in verses 12-15: they speak perverse things; they forsake the paths ol uprightness; they walk in the way, of darkness; they rejoice to do evil; they delight in the perverseness ol evil; their paths are crooked and wayward.

Deliverance from the strange woman is likewise vouchsafed, a, we have true wisdom. The descrip tion of these women is informative -flattering, forgetful of both friend, and God; their Ups drop honey, their mouths are smoother than ofl.

Notice the conclusion of the matter: In the end they are bitte, as wormwood, sharp as a two edged sword, their feet go down to death, and their steps take bold or

How much we need God's wisdom in this world. It is easy to be deceived.

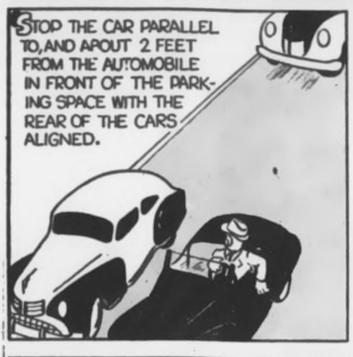

Ш. True Wisdom Means Peace at the End (Prov. 4:18-27).

O walk with God, to walk la wisdom, is indeed as the dawning light, shining more and того unto the perfect day. If there were no other reward for living for God (and there are many, many others), the benediction at eventide would he enough to «пап ND to thiak seriously before wo M I the ways of God.

HOW TO PARK YOUR CAR

THE CHICAGO MOTOR CLUB

Gasoline Tax Bill Soars As Motorists Pour Record Revenues Into Hgy. Fund

Revenues from the 3c state gascline tax paid by Illinois motorists during the first six months of 1947 totals more than \$21,245,267, according to J. H. Higgins, Executive Secretary of the Illinois Petroleum Industries Committee. This repre-In this passage in Proverbs the sents a 8.4A, increase over the first half of 1946, setting a new high in the 20 year history of oline tax collections.

During the first six months of 1941, when automobile registracernment, as earnestly as we would tions were at their peak, gasoline seek for silver and hidden treasures, tax revenues amounted to \$20,we shall understand the fear of the 955,438. Special taxes paid by motor vehicle owners rose from a 1941 figure of \$53.26 per vehicle to \$63.00 in 1946, reflecting the increased use of, and dependence of the public on, cars and trucks. The total 1947 gasoline tax bill alone is expected to reach \$46,500.000, Mr. Higgins said.

"In terms of highway construction," he added, "this means that motorists will pour \$74,000,000 in gasoline taxes and registration leer into the state highway fund

'Even though we have become accustomed to talk of roads in thousands of miles and road funds in millions of dollars, there is an clement of awe in the fact that Illinois motorists alone paid a gascline tax bill of \$21,245,267 during the first six months of 19D7."

Pecans Nutritious

Pecans furnish a generous amount of fats and protein, and also B vitamins, together with small amounts of iron and calcium.

IV. A Representative of True Wi dom (Prov. 31:10-12).

HpHIS passage describes the wist woman. She is indeed to be ex tolled. The worthy woman, th< woman who loves God, the worn ar who is therefore wise, is in price fat above rubies.

V. Sin's History (James 1:13-15 'T'HE wise man. the man who wil be pure in heart and life, ough to understand something of the his

tⁿry of sin in his individual life Temptation here refers undoubt edly to a solicitation to evil Got > does make trial of men (Gen. 22:1) that which is evil in itself. The history of personal evil is,

that because of our lust we are enticed. Thus when lust has conceived (that fa to say, we have succumbed to the enticement), sin is born, and sin, when K fa finished-bu it is never finished; It goes or ind on; no power on earth ca« arrest It — bringetb forth death.

Released by Western Newspaper Union.

World Leader

More wallpaper is produced in l'.linois than in any other comparable area in the world; the United States is the world's largest producer of wallpaper and about twof-fths of the country's total product is manufactured in this State. Joliet alone produces more wallpaper than any other city; onethird of the State's total product comes from the six mills located

The first people to use wallpaper were the Cinese, who commemorated the death of relatives by putting up a strip of paper after each death. Traces of these, covered with delicate hand-painted designs and used for purposes of ritual 2,000 years ago, have been discovered. The Chinese are also known to have used hand printing from wooden blocks before the Christian era.

Merchants and missionaries returning from China brought the first wallpaper that was used in Europe. There is some uncertainty about the date of the first production of wallpaper on the Continent; some authorities believe it may have been between A. D. 1450 and 1500. Wallpaper discovered at Christ's College. Cambridge, is believed to be the first ever made in England. It was printed in black ink on white paper from blocks measuring 16 inches by 11 Inches; on the back was a proclamation announcing the death of Henry VII in 1509.

All the oldest specimens were found in old inns, country houses, and college rooms, rather than in large mansions, as paper was introduced to solve tty? problem of covering walls when the expensive damask, embroidered, and painted Jik hangings then in vogue were too costly for ordinary purposes. It was later recognized as good style, however, and was sought by kings and queens and the nobility as well as commoners.

Seventeenth century wallpaper was made in sets, hung on rollers, and taken down from time to time. Each hanging was about 11 by 4 feet and joined laterally with the next one in the set. The paper was made in small sheets and pasted together. The designs were painted on by hand or printed in with wooden blocks, pear wood being used as the least likely to worp. Toward the end of the century, sencil plates were used in but he does not dangle before then adding various colors to blockprinted designs.

> In 1783 a machine was invented in England for printing calico with engraved rollers, and in 1790 a Frenchman invented a small machine which produced long lengths of paper about the width of a piece of tape. Improvements followed, and early in the 19th century the production of wallpaper on a commercial scale as we know it today was begun.

> Machine or cylinder printing of wallpaper was first undertaken in

this country in the late 1840's. For manyyears the growing industry In Wallpaper Was concentrated largely along the eastern seaboard, but about fifty years ago the industry began to develop in Chicago and then in Joliet, and later it spread to several other points in Illinois.

At the present time there are twelve wallpaper manufacturers, operating fifteen mills, in this -State. Six of these mills are in Joliet, three are in Chicago, two !n Auroa, one in Coal City, one in Mokena, one in Decatur, and one ?n Crystal Lake. In the aggregate tiic operations of these manufacturers in Illinois account for approximately 40 percent of the entire production of the domestic wallpaper manufacturing industry. In 1939 the value of wallpaper produced in Illinois was \$9,153,072. while that produced in the United States as a whole was valued at 5.24,968,M3.

At top speed a wallpaper maker could turn out 40 rolls a day back in the 1790's. Modern machinery prints literally by the mile; each of the large presses in the Joliet mills cah produce 10,000 rolls, or over 100 miles of paper. eac>. day. The machines are bloc*-b*»ng monsters through which the paper is fed and printed from small cylinders, sometimes in as many as twelve colors.

Along with many other products, wallpaper lost its originality of

Obterré U. S. Postage

Stamp Centenary

In July of 1847 the Post Office department issued its first U. S. s:amps This year marks the VOth anniversary of the first postage stamp and the department has made a commemorative issue bearing the pictures of Geo. Washington and Benjamin Franklin.

Most of us take for granted that there have always been postage scamps but Elvin Atherton gave us a definite reminder a few dajs ago when he brought to this office a letter dated July 19. 1816. which bore no stamp but simply the written words in the upper righthand comer. "5c Paid. *

The letter was from William and Mary Atherton of Bedford Co., Γ cnnsylvania. -Lovington Reporter.

Island Anchor

Puerto Rico is eastern anchor of the Greater Antilles chain of West Indies islands. One of the pleasantest and most fertile of the Caribbean Islands, It is roughly rectangular, 100 miles long from east to west and 35 miles wide. Its position. 1,000 miles northeast of the Panama canal, 1,000 miles southeast of Miami, and 500 miles east of Cuba, was strategic for wartime air and naval defense operations.

Ursolic Acid

Cranberry skins yield a wax called ursolic acid that may come back to dining tables as an emulsifying agent in mayonnaise, or to dressing tables in cosmetics.

design with the coming of the machine age. The same types of paper, with only slight variations in designs or colorings, were produced for 100 years. Their popularity waned, but the picture changed about ten years ago. The wallpaper industry began tempting the public with fres?f, attractive designs and fascinating colors, and a trend toward a greater demand for the more expensive, higher-quality grades of paper began, only to be cut short by the war. For four years no new designs were obtained and the paper allotment was decreased drastically, but during the past year the industry has been building up once more, has acquired new designs and expects 1947 to be one of its best years, as Illinois wallpaper dees its part in satisfying the pentup demand for home interior decorating materials.

WORLD WAR I

Milk prices in 1919 were about double those of 1914. By 1922, three years after the high point, they had fallen to about three* fifths of those received in 1919.

Beef cattle

Milk

Prices of Chicago steers in 1919 were not quite double those received in 1914. By 1922, three years later, steer prices were somewhat lower than those received in 1914.

Hogs

Prices of hogs in 1919 were over double those received in 1914. By 1921, two yçars later, hog prices had fallen to less than half those received in 1919.

Com

Prices of com in 1919 were over double those received in 1914. By 1921, two years later, corn prices were Jess than two-fifths of those received in 1919, and were less than the 1914 price for com.

WORLD WAR II

Milk prices in 1946 were over 2U times received in those 1939.

Prices of Chicago steers in 1946 were about double those received in 1939.

Prices of hogs in 1946 were not quite three times those received in 1939.

Cora prices in 1946 about 2Ц times those received

If hit tor y repeats itself prices of oil farm projects will fall with m the next few years. R. W. Bartlett, Professor Agricultural. Economics. University of illinois.f^-

New Kiddies* Garments to **Be Sold by Measurements**

In the past, mothers of young chib dren have done a lot of complain* ing about the sizes of children's clothing. Now at least one of the large firms In the garment industry is doing something about it by adopting a new sizing program for all infants' and children's underwear, playwear and sleeping wear; but the success of the program will depend on the co-operation the mothers give.

The fundamental basis for the new program is body measurement instead of age of the child, and it is worked out according to scientific data assembled by the bureau of human nutrition and home economics of the U.S. department of agriculture. In order that the program will not be too revolutionary, age markings—so long the designation under which garments have been sold-will be continued for a time.

The homemaker looking for an accurate fit will need to know the age and weight of a baby when shopping for infants* wear such as shirts or training panties. If she is buying union suits or two-piece buttontogether training suits, age and vertical trunk measurements are called for. Chest and waist measurements are needed for boys' shirts and shorts, and age, weight and height for girls* panties and vests. For a while at least, woven labels on the garments will carry size markings by age only, but the label on the and of the box will give body measurements.

Mighty Fittin' - Those Old-Time Tomato Preserves

-Photo Courtesy Ball Bros. Co.

"How dear to my heart are the scenes of my childhood!" Memories of old oaken buckets belong to a vanishing generation but almost everybody has fond recollections of the favorite foods of his childhood. Every year a good many people write Gladys Kimbrough, Home Service Director for Ball Brothers Company, manufacturer of fruit jars, requesting a recipe for pickles or preserves "like my mother or grandmother used to make."

A recipe popular a half century ago appeared in an early edition of the Ball Blue Book. It reada: 'To every pound of small yellow tomatoes allow one pound of sugar. Put the tomatoes and sugar together and to every seven pounds of sugar allow the juice of three lemons. Let stand together all night and in the morning drain off the sirup and boil. (The recipe doesn't tell how long, but 10 minutes should do.) Put in the tomatoes and simmer for twenty minutes after they boil Remove the tomatoes and allow the sirup to boil until thick. Just before taking from the fire, add the lemon juice. Put the fruit in the jars and cover with boiling sirup. Seal immediately."

If a more modern recipe is wanted. you might try:

2½ pounds (peeled) small tomatoes 2H pounds sugar

2 cups water

Ц ounce whole ginger IK lemon (sliced thin) J Mt ounce of stick cinnamon

Boil together water, sugar, lemon and spices for fifteen minutes; add tomatoes, a few al a time, and cook gently until the tomatoes become bright and clear. Then j

Tailor's Patch

The tailor's patch, which is set on fabric with a crochet hook, is almost invisible and can be used for mending men's and women's suits and dresses.

An Old Faverite

pour into shallow pans, cover and let stand over night. Pack the cold tomatoes into hot jr.rs and strain the sirup over them. Process twenty minutes at simmering.

Recipe for Less Sugar If you are wondering where you are going to get the sugar, as who isn't, here is your recipe:

2 pounds tomatoes 2 cups sugar

2 cups «>>.1, sirup, light or dark K cup water

1 lemon 1 small orange

1 stick cinnamon 2 pieces ginger root

6 whole cloves K cup raisins

Use small, firm, red, vellow or green tomatoes. Scald one minute. Dip into cold water. Skin but do not core. Combine sugar, sirup, water, lemon, orange (sliced thin) and spices, and simmer 30 minutes. Remove spices. Add tomatoes and boil gently until they are bright and clear. Add raisins. Cover and let stand over night. Pack cold tomatoes into hot fruit jars. Boil sirup until thick as honey and pour over tomatoes. Process 15 minutes at simmering.

Pilgrims Succumbed

Of the 102 peuple who went to America on the "Mayflower" only 49 were alive eight months later, which rather explodes the "hardy pilgrims'* stoij.
